# Emergency School Closure

SETTING WORK FOR  
PUPILS AT HOME

# Staff Expectations

WHAT TEACHING STAFF ARE EXPECTED TO DO

# Structure of the work

We expect teachers to spend an appropriate amount of time planning and resourcing tasks that enables students to continue learning the curriculum in each subject.

Teachers are expected to set challenging work for students that is in line with the curriculum plans.

## **Guidelines for structuring learning activities:**

1. Primarily paper-based tasks
2. All children to be issued with a new exercise book
3. Prepare a timetable for setting out tasks for the week
4. Set the following daily tasks:
  - Maths – arithmetic and reasoning
  - Reading, including comprehension tasks
  - Writing and handwriting
  - Spelling
  - Times tables
  - A weekly project to include: science, history or geography (this might be reflective of the missed classroom learning). This could include activities from across the curriculum e.g. D&T.
5. Home learning area on website will be updated with set tasks and signpost parents to useful apps/internet based learning.
6. Resend all children's logins home on one document.
7. Work will be collected by the teacher on the return to school.

# Pupil Expectations

WHAT PUPILS ARE EXPECTED TO DO

# Pupil Expectations

Pupils are encouraged to complete the work that has been set to the best of their ability and to an expected high standard.

However, we appreciate that parents may engage children in alternative learning activities, such as: cooking, den building, gardening – we value these too! The well-being of our families takes precedence.

If work has been completed in books or on paper, your child's teacher would love to see it on the return to school.

Most importantly, keep safe and well - remember that we are here if you need us!
